

FEEDBACK FROM OUR CUSTOMERS

DHEA 7-KETO IS WONDERFUL

“ I have been on DHEA 7-Keto for a month now and I feel like a different person. I have more energy, I sleep better and my mental focus has improved. It is a wonderful product. ”

Yvonne

SHARPENED MENTAL CLARITY

“ After taking DHEA 7-Keto for a few years now, I cannot believe the mental clarity and energy that I now have. My youthful exuberance has returned! ”

Chris

DHEA 7-KETO

Look younger, live longer, restore the energy of your youth and sharpen your mental clarity with this natural plant based supplement.

What is DHEA?

DHEA is a natural 'feel alive' hormone, made by your adrenal glands. It is the most abundant hormone in your body during your youth and peaks at around 25 years of age. It however steadily declines (in both men and women) after the age of 35 and as it drops, so does your youthful vigour, mental clarity and focus. By the time you turn 75 your stores of DHEA have virtually disappeared.

What is the difference between DHEA and DHEA 7-Keto?

DHEA is a pharmaceutical medicine (prescription only) made from pig ovaries and when taken in excess can elevate your sex hormone levels.

Whereas, DHEA 7-Keto is an all natural product made from the wild Yam plant which is modified to produce an exact copy of DHEA.

DHEA 7-Keto does not affect the stability of your sex hormones unlike pharmaceutical DHEA.

Enjoy energy and passion

DHEA can make you feel energetic and passionate, support your mental focus and clarity and improve your overall well being.

Improve your artery and blood health

According to a report in the New England Journal of Medicine, your artery and blood health can be greatly supported by taking DHEA 7-Keto.

Is DHEA 7-Keto safe to take?

There have been no reported side effects from taking DHEA 7-Keto long term. It also doesn't affect the body's ability to produce it naturally.

BENEFITS:

- Helps to turn back your body clock
- Makes you feel enthusiastic and full of vigour
- Enables you to enjoy better health as you age
- Sharpens your mental focus
- Supports artery and blood health
- Increases your desire to exercise and eat healthily
