OUR PROMISE TO YOU

If you are unhappy in any way, let us know and we will do everything we can to put it right. If you are dissatisfied, return your purchase within 60 days for a refund or exchange.

FOUR EASY WAYS TO BUY

1. Free phone 0800 140 141
2. Website www.healthhouse.co.nz
3. Send in the order form (page 21)
4. Visit our shop - 1 Whakakake St, Tauriko, Tauranga

For more information refer to the order form on pages 21 and 22.

PRODUCT ICONS

These icons help explain the products and when and how to take them.

Loyalty rewards

Earn a 10% Discount

We will automatically give you \$30 towards your next order, after you have spent a total of \$300 with us.

Refer a friend

When you refer a friend to us as a new customer, you will receive \$10 towards your next order, when they make a purchase.

In this issue

We've packed a lot into this catalogue, and one of the things that means the most is being able to include David's article about what he's been navigating health wise. His recovery is really gathering strength, and it's genuinely great to see him progressing well.

Articles

We have a new contributor this time Keith Michaels from FoodSafe. Keith is our Food Safety Trainer for our factory staff. I thought the training topic on food poisoning would be of interest, so I asked him to write an article. A big thanks to Keith for this. If you enjoyed his article let us know and I will see if he wants to do more in the future. Also, if you are in the food business and need staff training, I cannot recommend him highly enough.

Megan also writes about how to deal with, and recover from digestive system issues.

Probiotics

We have also decided to sell pouches of ten probiotic capsules (these usually come bundled with the Ultimate Cleanse Kit). This is a great way for people to try the probiotics without buying a whole bottle. You could give a pouch to a friend who might benefit from some short-term gut health support. They are perfect for anyone who has been prescribed antibiotics, as one in five people get diarrhoea when taking that medication.

The next batch of probiotics has just been ordered from Japan, and we expect them to arrive in a few months.

In the meantime, we are running a two or more special on the current batch of probiotics. This batch does not expire until Sept 2026, save money while you can. All probiotic products are on page 9. We are also running a clearance special on The Ultimate Cleanse Kit for \$79 each, also on page 9.

Super C Powder

You will see from the cover (and page 3) that we have bought out a new vitamin C powder. This is a significant improvement over the original Complete C Powder. Better dissolving, better tasting, and the same important levels of Vitamin C but with the advantage of higher antioxidant levels.

Curcumin/Turmeric

We have also decided to bring out turmeric powder. Turmeric capsules are a challenge when you have a spotless white factory, and the cleaning times are crazy. We are trialing supplying the powder in a tub. This makes it easier to add to smoothies or food, and the tub contains the equivalent of 200 capsules. This turmeric extract contains 95% curcumin so use it sparingly, it is over thirty times stronger than food grade turmeric.

Kind regards

Mike Coory

Managing Director

Super C Powder

The next generation of Vitamin C from Health House, with three forms of Vitamin C plus a Super Fruit Blend

Super C Powder is the next step in HealthHouse's commitment to offering a high-quality vitamin C formulation.

Starting with the key components of Complete C Powder, our new Super C Powder delivers the same blend of vitamin C types but is now enhanced with a super-fruit powder for better taste and an extra, natural source of vitamin C.

At the heart of Super C Powder is a blend of three complementary forms of vitamin C: calcium ascorbate, sodium ascorbate, and ascorbic acid. Each form dissolves and absorbs slightly differently, supporting different absorption rates while remaining gentle on the stomach. This mixed-form approach has been a hallmark of our vitamin C products for years, and Super C Powder continues that with a cleaner taste and improved dissolvability.

Where Super C Powder is a step up is the premium Australian sourced Super Fruit Powder. This is produced using a low-temperature drying process to help retain colour, flavour, and nutrients. It combines blackcurrant, blueberry, pomegranate, raspberry, strawberry, cranberry, elderberry with açai.

The Super Fruit Powder delivers the characteristic berry colour and aroma you would expect, along with an extra ORAC (antioxidant) value of 31,200 µmol per tub adding a natural fruit flavour and colour to each serving.

Many people are not aware that vitamin C is a natural antioxidant and adding the super fruit powder boosts its overall antioxidant profile.

You'll notice the better taste straight away. The berry flavour takes the edge off the natural sharpness of vitamin C, making the powder pleasant in water, smoothies, or juice.

Each tub contains 20g of calcium ascorbate, 20g of ascorbic acid, and 20g of sodium ascorbate, along with 60g of super fruit powder. The product is made by us in New Zealand from imported and local ingredients, with all manufacturing carried out to our usual high standards.

If you enjoyed Complete C Powder, you'll love Super C Powder's fresher flavour. It's a simple, convenient choice for those seeking a high-quality vitamin C supplement with a naturally pleasant taste.

How a cancer diagnosis changed my perspective

I'm writing this in December 2025 and am grateful to be greatly improving in health.

However, just seven weeks ago while sitting in my doctor's office, he showed and discussed with me graphs of my last three blood test results and warned, "Life-threatening, if this trend continues, we must seriously consider the possibility of death within a few months." Not very reassuring words.

I try to follow all the teachings of Jesus, and during a moment of self-reflection I asked God, 'What thoughts do I entertain, that offend You the most? These exact words flowed into my mind, 'Judging the poor health of others, attributing it to their weaknesses'.

For 78 years I'd enjoyed excellent health and had always credited it to my own habits, while blaming other people's lifestyles for their own illness. But clearly, we should not judge others, so I resolved to do so no longer. However soon after, I developed a persistent cough, then a lump under my arm.

Diagnosis

My health then declined rapidly: night sweats, loss of appetite, muscle wasting, stomach fluid retention, and chronic fatigue. From being able to do 50 push-ups, I couldn't even do one and I lost 9kgs.

Fortnightly blood tests resulted in the grim prognosis by my doctor, showing dangerously high white blood cells low red blood cells and severe inflammation. Iron stores were normal, but the iron was not being used by my

body, hence the chronic fatigue. I was also referred to a team of oncologists who concluded it was melanoma.

While not fearing death, I was worried about leaving my beloved wife Marie and unfinished work with my books. Through it all, I was humbled by the support of numerous relatives and friends along with their prayers for my recovery.

Treatment

I maintained my very healthy diet and took our Optimum Health Triple Pack and The Sunshine Vitamin (vitamin D) capsules and developed a craving for pomegranate juice. I also started drinking a cup of Medicinal Cannabis Tea in the evenings. I've received an iron infusion and began an immunotherapy course. Immunotherapy is done at three weekly intervals, and I had my second one last week.

I was pleasantly surprised that cannabis tea was easily prescribed by my doctor, and my oncologist was comfortable with its use alongside immunotherapy. I saw it as something that might help the strain my body was under at the time.

I believe that part of my recovery may have been the role cannabis tea played, but it is difficult to separate the effects of any one treatment.

What I can say is that I slept more deeply, woke feeling less anxious, and was noticeably calmer during

the day. Over time, this coincided with a reduction in fluid retention and an improvement in how I felt and functioned. A good night's sleep and freedom from anxiety are vitally important when the body is under stress.

Conclusion

Since the iron infusion, immunotherapy, cannabis tea and supplements and numerous prayers, there has been an impressive turnaround in my health. My annoying cough is finally gone and the lump under my arm has shrunk to almost nothing.

My energy has returned and this morning I did my normal amount of push-ups, instead of one. I'm still 5kg under my normal weight, but confident this will continue to improve.

Most importantly, I've learned compassion: never judge others for their struggles. That role belongs to God alone and I thank Him for teaching me this.

ABOUT THE AUTHOR

David Coory is the founder of Health House and author of Stay Healthy by supplying what's lacking in your diet, New Zealand's top selling health book.

Support your everyday health

By taking one of each of the three Triple Pack supplements daily, along with the average New Zealand diet, all your nutritional needs should be met. Each Triple Pack contains two months supply of CAA - Multi, Bone Health and CoQ10-Omega3.

Our best selling product

We believe that this is the most complete mineral-vitamin supplement on the market.

CAA - Multi is specially formulated by New Zealanders, for New Zealanders. It contains all the minerals known to be lacking in our soil as well as important vitamins and antioxidants that are missing from our food and diet.

It allows your body to heal itself of numerous health problems by providing all the minerals and vitamins it needs.

Also available in CAA-Multi Sensitive (no iron or sulphur added)

If taking Warfarin or any other blood thinning medication please discuss this with your healthcare professional.

Supports heart, artery and brain health

CoQ10 is a powerful antioxidant which is vital for life long muscle energy and a healthy, lively old age. It supports blood health and mental clarity.

EPA 270mg / DHA 190mg / Omega-3 (other) 40mg

If taking Warfarin or any other blood thinning medication please discuss this with your health professional.

Keep calcium in your bones with Bone Health

Bone Health provides the correct balance of the four bone nutrients.

It is really important to have the proper balance between the four bone nutrients (calcium, vitamin D, vitamin K2 and magnesium). An imbalance of these four nutrients is why some calcium supplements have become associated with increased risk of heart attack and stroke, instead of supporting our health, as Bone Health is scientifically designed to do.

If taking Warfarin or any other blood thinning medication please discuss this with your health professional.

FRUIT ANTIOXIDANT Superfood capsules

These days, many of us don't consume enough antioxidants in our diet to counteract the damage being done by free radicals.

It is important that we include a variety of antioxidant-rich foods to ensure we live a long, healthy life. Achieving this can be a challenge with the busy lives we lead.

This natural Fruit Antioxidant has achieved very high antioxidant activity, containing over five times that of vitamin C and other antioxidant-rich foods.

\$55ea 60 capsules

1 per day Morning

With or without food

If taking Warfarin or any other blood thinning medication please discuss this with your health professional.

NEW ZEALAND KELP

Kelp, harvested from New Zealand's nutrient-rich waters, benefits nails, hair, and overall health. Rich in iodine, it supports thyroid health and helps protect against radiation damage.

\$33ea 60 capsules

1 every 2 days

Morning

With or without food

Small size capsules each containing 1000mcg of Iodine.

CURCUMIN/TURMERIC General health

Curcumin is the active ingredient in turmeric, an ancient Indian spice with centuries of use in both Chinese and Hindu traditions.

This powerful antioxidant supports healthy circulation and provides support for joint health and mobility. It supports digestive function, bowel functions and provides protection from toxins and other health issues.

Careful research was undertaken prior to sourcing our Curcumin 95% supplement. While turmeric spice is readily available in supermarkets, you would require over a tablespoon of spice every day to get any benefit and even then, the low level of curcumin (less than 5% of the spice) is not easily absorbed.

To overcome this, we have sourced a highly concentrated, easily absorbed 95% curcumin.

Supports

- ✓ Healthy blood pressure
- ✓ Healthy cholesterol levels
- ✓ Liver detoxification
- ✓ Assists with bowel and digestive problems
- ✓ Mental clarity and focus
- ✓ Joint mobility

Made in New Zealand with premium Indian-sourced ingredients.

\$99ea 90g powder

1/3 - 2/3 tsp per day

Anytime With food

Directions: Adults - recommended dosage is 500-1000mg per day (approximately 1/3 to 2/3 teaspoon). For best absorption, consume with meals. It can also be added to smoothies, juice or water.

Precautions: Do not use for two weeks prior to or following surgery. Avoid if you have gallbladder issues. Consult a healthcare professional if taking blood-thinning medication, or if pregnant or breastfeeding.

CORAL CAA

Coral CAA provides half the vitamins and minerals of CAA-Multi and half the ingredients of Bone Health, ideal for smaller-framed individuals or sensitive systems. Younger children's vitamin and mineral requirements are often less than adults and Coral CAA is a good alternative for them too.

\$49ea 60 capsules

1-2 per day Morning With food

If taking blood thinning medication please discuss this with your health professional. Do not take if allergic to fish, sulphites or crustaceans.

PREMIUM COLLAGEN

Collagen helps maintain youthful skin and supports digestive wellness

Collagen is one of the most important proteins in the body. However, as we age, our natural collagen production declines, leading to weaker skin, joints, and connective tissues. Supplementing with high-quality collagen can help support the body's structural integrity and overall well-being.

Health House Premium Bovine Collagen is sourced from a world-leading European collagen producer with over a century of expertise.

This premium collagen is free from added flavors and sweeteners, making it a versatile addition to your daily routine. Simply mix it into beverages, smoothies, or sprinkle it over food for an easy way to nourish your body from within.

Storage: Store below 30°C away from direct sunlight, heat and humidity.

Ingredient imported from Europe and packed in New Zealand.

Blame it on lunch? Not so fast

The science of delayed food poisoning

Have you ever pointed the finger at last night's dinner for an upset stomach, without thinking about what you ate earlier in the week?

Food poisoning isn't always caused by your last meal; some bacteria play the long game!

We often think that the last meal we had is the culprit when we feel unwell, but some bacteria are quite clever and can take their time before making us sick. Many foodborne pathogens don't show their effects straight away. Take *Listeria monocytogenes* for instance, a bacterium often associated with ready-to-eat meats, coleslaw-type salads, and unpasteurised dairy products. It has an incubation period that can range from 1 to 70 days! This means that symptoms like fever, muscle pain, or stomach issues can crop up long after we've consumed the contaminated food, which makes pinpointing the source quite tricky.

On the other hand, pathogens such as *Salmonella* and *Campylobacter* typically show symptoms within a window of 6 to 72 hours post-ingestion. This delay in onset can lead to confusion where people misidentify the cause of their illness, often blaming the wrong meal or even pointing fingers at the wrong place entirely, while the real source stays hidden.

This misdirection isn't merely an academic issue; it has genuine implications for food safety systems and public health monitoring. Wrong assumptions create gaps in traceability and postpone necessary corrective measures.

Now that you are aware of this, how can you apply this knowledge to keep 'food safe'?

If you are responsible for food safety, encourage your team to adopt a detective mindset rather than making assumptions.

Safe Practices at Home

Cook It Right

- Poultry and meat should reach at least 70°C for 15 seconds to be safe to eat. Using a meat thermometer is the most reliable way to ensure the food has reached the correct temperature. If you do not have a thermometer, cook the meat until any juices run clear and piping hot.

Reheat Once

Bacteria can increase each time food is allowed to cool and is then reheated so avoid reheating leftovers multiple times.

That delicious chicken tikka in your favourite butter chicken curry might have already gone through a pre-cook/reheat in sauce, process (for quicker service times) at the restaurant before you even bought it. Therefore, it is wise not to refrigerate such takeaways for too long.

Refrigerate / Be Cautious with Ready-to-Eat Foods

Enjoy them fresh & don't forget to wash your lettuce!

Understand "Use By" and "Best Before" Dates

- "Use by/Expiry" means it is time to toss it for safety. Don't eat after that date.
- "Best before" is about quality attributes (e.g. colour, flavour, texture, and freshness)

Report Suspected Illnesses Promptly

If you suspect food poisoning, don't hesitate to contact your local health

unit. Genome sequencing is helpful for public health investigations.

Nurture Your Gut Microbiome with Probiotics

A healthy gut microbiome is vital for protecting against harmful bacteria.

- Incorporate probiotic-rich foods or supplements into your diet & nourish it with prebiotic fibre.
- If you have taken antibiotics, it is a good idea to restore your gut flora with fermented foods or supplements.
- Remember: it is wise to consult your GP before starting any supplements if you're immunocompromised.

Transparency note: This publication is not sponsored. Food Safe upholds a professional training partnership with ZHM and Health House, reflecting our mutual dedication to GMP & ongoing food safety education.

Food poisoning effects, recovery and healing

The digestive system is the foundation of our health. When illness disrupts it, the effects can be widespread and long-lasting.

Hydration and diet during initial phase

During the initial phase of illness, adequate hydration is crucial to replace fluids and electrolytes lost through vomiting and diarrhoea. Adding unrefined salt to water - 1/4 tsp per 4 cups during illness, or 1/8 – 1/4 tsp per litre for general hydration; helps restore lost electrolytes.

It's important to choose foods that are gentle on the inflamed digestive system, such as rice, bananas, chicken or vegetable broth, toast and plain scrambled eggs. Once initial symptoms have eased, a gradual reintroduction of usual foods is advisable; to observe how the digestive system responds.

The long-term effects

Microbial imbalances

Once initial symptoms have subsided, underlying disruption in the digestive system can persist. Inflammation in the intestines creates an environment that is unfavourable for beneficial bacteria, while harmful bacteria can thrive. This can lead to an imbalance in the gut microbiome, where populations of good bacteria decrease. Because beneficial bacteria support the immune system and help keep harmful bacteria in check, their reduction weakens this line of defence, further allowing harmful bacteria to multiply.

Nutrient Deficiencies

Another long-term effect that can occur post gastrointestinal illness are nutrient deficiencies, due to pathogens competing with beneficial bacteria for nutrients. This causes harm in two ways: first, the good bacteria receive fewer nutrients and their numbers

decline; second, fewer nutrients remain available for the digestive system to absorb and for the body to utilise. Over time, this can contribute to common nutrient deficiencies such as low iron, B12, folate and zinc.

Leaky Gut (Intestinal Hyperpermeability) and Inflammation

Inflammation from infection can also damage the intestinal lining, leading to "leaky gut," which can contribute to or worsen conditions such as eczema, acne, histamine intolerance, migraines, bloating, irregular bowel movements, gout, joint pain, reduced immune function, brain fog, fatigue, and hormonal imbalances.

Post illness healing

Probiotics

Recovery time after illness can range from weeks to months, depending on the severity. Taking a high-quality probiotic is important to help restore beneficial bacteria and suppress pathogens. Good bacteria support gut health by creating an unfavourable pH for pathogens, producing antimicrobial compounds, enhancing immune function, and occupying space and nutrients, effectively leaving "no vacancy" for pathogens.

Nutrients and Herbs

Supporting healing of the intestinal lining involves nutrients such as glutamine, zinc, and vitamin D. Glutamine can be obtained through specific supplementation, bone broth, or collagen. Aloe vera juice may help reduce inflammation, promote healing, and promote regular bowel movements. Psyllium husk can be a

helpful addition and acts as a prebiotic to feed beneficial bacteria, while also promoting regular bowel function. Adequate water intake is essential when using psyllium husk. Herbal teas such as chamomile, peppermint, fennel, and ginger can provide soothing effects for gut healing.

Diet

Diet plays a key role in healing the digestive system, reducing inflammation and supporting beneficial bacteria by providing prebiotics (food for good bacteria). Eating nutrient-dense, anti-inflammatory food promotes recovery. Diets like the Mediterranean diet, along with fermented foods such as sauerkraut, kefir, kimchi, and yoghurt, can be especially beneficial to focus on during this period.

Stomach illnesses can be complex, ongoing symptoms may persist without proper testing, support and treatment. Contact your local naturopath for targeted guidance if symptoms continue. However, seek medical attention promptly if you experience diarrhoea lasting longer than three days, blood in your stool, an inability to keep liquids down, or signs of dehydration such as dry mouth, infrequent urination, or dizziness.

REALSALT

The way salt should be - nothing added, nothing taken away.

Exactly as nature made it - and mined in Redmond, Utah. Just two hours south of Salt Lake City.

Health benefits of RealSalt

RealSalt is unrefined, ancient sea salt sourced from a pure Jurassic sea in Utah. It contains over 60 naturally occurring trace minerals that are essential for health and vitality.

Unlike regular table salt, which is heavily processed and stripped of nutrients, RealSalt keeps its full mineral profile, including natural iodine that the body absorbs more effectively than synthetic forms. These minerals help support hydration, electrolyte balance, and overall wellbeing, making RealSalt a clean, nourishing alternative to refined salt.

Original Fine Refill Pouch & Shaker

RealSalt Fine Refill Pouch

Colloidal SILVER

Use our scientifically researched Colloidal Silver Liquid to enhance the health of your body. Colloidal Silver Liquid prevents the spread of bacteria and is a great healer.

Colloidal Silver and Bacteria

Hundreds of health disorders have been documented in medical journals as being successfully helped by taking or applying colloidal silver, and more are being added to the list all the time.

Colloidal silver allows the body's immune system to heal the body in an all natural way. It also helps the body cope with seasonal chills and ills especially when sprayed in the nose and mouth.

Colloidal silver can be used several ways; by drinking it, by holding it under the tongue, by a sprayer for the nose, throat and ears, or a soaked pad for skin ailments.

Is it safe?

It is very well tolerated and to our knowledge does not interact with any medical drug. It is odourless, non-stinging and suitable for the whole family when used as directed.

Silver has been used for thousands of years for a variety of purposes ranging from keeping food and liquids from spoiling, purifying water and more recently to coat medical dressings.

Make your own at home

Make fresh, high quality Colloidal Silver Liquid yourself at home for a fraction of the cost.

MACA-X

High quality minerals and vitamins

Maca is a stress support herb, which means it helps the body adapt to stress and supports a return back to its normal balance.

Maca is rich in essential minerals, especially selenium, calcium, magnesium, iron, and includes fatty acids such as linolenic, palmitic and oleic acids and polysaccharides.

COLLOIDAL SILVER CREAM

Give your skin the gentle daily care it deserves.

This 100% natural, soothing and moisturising cream is enriched with colloidal silver, avocado oil, aloe vera, lavender essential oil, shea butter, cocoa butter, jojoba oil and calendula oil.

Its gentle, nutrient-rich formula is ideal for dry, sensitive, or easily irritated skin. Used as a daily moisturiser, to help calm, hydrate and nourish the skin.

Directions for Use:

Gently massage into clean, dry skin morning and night, or apply as needed for extra hydration and comfort.

\$31ea 100ml tube

Rubeeven

Rubeeven™ combines capsaicin (cayenne) and bee venom for rapid joint stiffness relief. Made in New Zealand, it delivers bee venom through a chilli extract, warming muscles, bones, and joints. Used in Asia for over 2000 years, bee venom supports joint and muscle comfort.

Ingredients: Distilled Water, Cayenne Liquid Extract (Capsaicin), Coconut Wax, Extra Virgin Olive Oil, Benzoin Tincture, Bee Venom.

Warning: Do not use if allergic to bee products. May cause a temporary warming sensation to the area applied. If too hot, wash off and apply less.

\$35ea
30ml pump

Pain-Eze

Pain-Eze contains 11 active ingredients and is an all natural, warming cream with powerful essential oils and potent extracts.

These are six beneficial plant oils, four liquid plant extracts and a plant based preservative in a natural healthy coconut base.

\$37ea
100ml tube

Directions

Massage gently into the affected area two or three times daily, or as required.

Magnesium

Your body requires a high level of magnesium and it is critical to support heart health.

Without sufficient amounts of magnesium, your body simply cannot function properly.

Magnesium helps relax your mind and supports healthy blood pressure and a sound sleep. It is also vital for a healthy heart. This extremely important mineral is lacking in the average New Zealand diet and is essential to support cardiovascular health.

Magnesium also helps in the absorption of calcium and plays a key role in the strength of your bones and teeth.

Capsules

The complex we use is a blend of mainly magnesium citrate with a small amount of magnesium oxide to give the maximum absorbable amount of elemental magnesium we can fit in each capsule.

Although citrate is one of the more expensive of all the magnesiums, it absorbs well and provides a high amount of elemental magnesium, with a low risk of stomach and bowel upsets.

Benefits

- ✓ Helps relax your mind
- ✓ Supports healthy blood pressure
- ✓ Supports a deep restful sleep
- ✓ Vital to support a healthy heart
- ✓ Easily absorbed even if digestion is weak

Available as capsules or a topical magnesium chloride cream

Magnesium Cream

WITHANIA /ASHWAGANDHA

Mood and vitality

Withania, also known as Ashwagandha, is a powerful herb renowned for its calming, revitalising and healing properties.

Withania supports physical and mental energy and is revered for supporting health and wellness into the elder years.

Withania is an excellent choice when looking to support energy levels, lift mood, support restful sleep and help recover from any illness.

-  **1** per day  Anytime
-  With or without food

\$39ea 60 capsules

If taking thyroid or any other prescription medication, please discuss this with your healthcare professional. Not recommended if pregnant or trying to conceive.

Dry eye relief

No more eye drops

Try our new easy to use castor oil rollerball, a topical application for dry eye relief.

Formulated to alleviate symptoms of blepharitis and itchy eyes.

Blepharitis is a common eye condition that makes your eyelids red, swollen, irritated and itchy. It can cause crusty dandruff-like flakes on our eyelashes. Blepharitis can be uncomfortable but isn't contagious and usually doesn't cause any lasting damage to your eyes.

Always consult your doctor about what is causing your blepharitis and the best ways to manage it.

Castor oil forms a protective layer on the skin surface which locks in moisture by penetrating the skin barrier. Applying Dry Eye Relief to your eyelids allows oil to penetrate the skin which supports improved dryness in your ocular surface (eyeball). This can dramatically reduce symptoms of dry eye disease. These symptoms can be stinging or burning sensations, a feeling of having something in your eye, redness, sensitivity to light and blurred vision.

Our Dry Eye Relief is made with pharmaceutical grade, cold pressed castor oil and is preservative free.

Benefits

- ✓ Supports dry, irritated eyes
- ✓ 100% natural
- ✓ Easy rollerball applicator
- ✓ Gentle on sensitive skin
- ✓ Pharmaceutical grade castor oil

\$34ea 10ml rollerball

Apply a thin layer twice daily to both the upper and lower eyelids.

Remove contact lenses before applying. Avoid direct eye contact.

For external use only. Discard unused content four weeks after opening.

NEW ZEALAND Manuka Oil Cream

Natural support suitable for dry, reddened, sensitive and irritated skin.

Supports

- ✓ Natural relief to irritated skin
- ✓ Calming sensitive skin
- ✓ Soothing reddened, flaky skin
- ✓ Customers favourite

Not recommended for children under 2 years.

Directions: Apply gently onto the affected area two or three times a day or as required.

TURN BACK TIME Anti-Ageing

A revolutionary inside-outside skin treatment for younger, smoother looking skin.

Combat ageing inside and out with our powerful combo! Our cream blends liquid CoQ10 and marine collagen, while our capsules deliver water-soluble CoQ10 and bioflavonoids. Vitamin C boosts collagen and firms skin, while CoQ10, vital for youthful skin, declines with age. Free from parabens, paraffins, SLS, and synthetic fragrances.

Turn Back Time cream contains powerful active ingredients in a natural moisturising base to soothe and improve your skin.

HEMP SEED OIL

New Zealand grown Hemp Seed Oil capsules

A healthy plant based source of omega oils, high in vitamins, minerals and amino acids.

Our bodies are unable to produce the essential fatty acids DHA and EPA so they have to be sourced from supplements and diet.

While hemp seed oil is not as high in omega levels as our Premium Fish Oil capsules it is a good alternative for those who prefer not to take fish oil.

Cold pressed from New Zealand grown hemp seeds, this high quality hemp seed oil also contains vitamin E, folate, niacin, magnesium, zinc, copper, manganese, calcium and iron.

Made in NZ

PREMIUM FISH OIL

Brain and artery health

Not all fish oil is created equal. The source, type of fish and how it is processed makes a big difference.

The best fish oil is made from small fish sourced from clean oceans. Having a fish oil manufacturer that has a good fishing conservation programme and high standards justifies the cost for a premium quality product.

Health House Premium Fish Oil is imported from the United Kingdom from fish sourced principally from the Pacific and Atlantic Ocean, using wild sources of small fish (anchovy/sardines) and operating within global standards (IFFO). They use the latest refining technology to ensure much lower fat and calories than regular fish oil.

Our Premium 3 Fish Oil capsules contain 570mg of responsibly sourced omega 3 oil. For those that like the technical information that is at least 300mg of EPA, 200mg of DHA and 70mg of the other Omega 3 oils.

Second Edition of the Medicinal Cannabis book

A simple guide for New Zealanders

Medicinal cannabis is rapidly moving from the fringes of medicine to the centre of scientific and public debate. In this second edition of Medicinal Cannabis: A Brief Guide for New Zealanders, Professor Shaun Holt doctor, researcher, and trusted medical commentator combines clear, evidence-based analysis in an engaging, easy-to-read style.

You'll explore the plant's complex chemistry, its potential medical benefits, and its risks all explained in plain language but grounded in rigorous science.

The book examines the latest research and real-world applications, offering a balanced view for patients, clinicians, and the interested observer alike. Informative yet approachable, this is the essential handbook for anyone seeking to understand the facts about medicinal cannabis today.
